school

Curriculum Coverage for Autumn Term in Years 3 and 4

We have lots of exciting learning planned for Autumn Term 2024 and we cannot wait to get started.

In Geography we will learn countries of the world. We will find out about the continents and countries and identify the capital cities of major cities in the world. We will compare some cities to life in Britain.

In science, we will learn about circuits and make our own circuits with different components.

Our first History Topic is Prehistoric Britain where we will learn all about early humans in the Stone, Bronze and Iron Ages.

We will be creative with textiles and create our own festive themed cushions in DT. In art, we will explore printing and create some of our very own cave paintings.

In PSHCE, we will learn about our self identify and awareness and caring relationships in friendship and families. We will explore ideas around body image, boundaries and privacy

In PE we will enjoy learning how to play tennis, practise our gymnastic skills and Y4 children will have a brilliant time learning to swim.

Our computing topics the internet and audio editing.

In music we will explore feelings when we play and look at writing down music.

We will be very busy indeed and will have great fun learning together and working hard. Please us ask if you have any questions or worries.

Thank you for your continued support.
The Year 3/4 Team

Books to try and read when you are in Years 3 and 4
